Annual Index

Authors

Abderhalden, E.: Action of thymus diet on growth and development of frog larvae.....434
— (Gellhorn): Comparative experiments on the action of 1- and d-adrenine on the gas exchange of organs in different conditions.....419
— (Wertheimer): Action of thyroxine during feeding with diets of different composition 527
— — Influence of diet on action of certain internal secretions 215
— — Insulin and adrenine action with acid diet.....215
Abel, J. J.: Crystallization of insulin 637
Abelin, J.: cf. Miyazaki.....231
— (Goldener): Combating insulin hypoglycemia 428
Adam, A.: Action of insulin in spasmophilia of infants..... 77
Adamberg, L.: cf. Lipschütz.424-425
Adolph, E. F. (Ericson): Pituitrin and diuresis in man.....632
Ahlgren, G.: Microspirometric researches on hormones.....501
Allen, E.: Menstrual cycle in the monkey 208
— The ovarian follicular hormone 207
— cf. Hartman.....291
— cf. Pratt 514
Alzinger, F.: Influence of organ extracts and especially of extract of corpus luteum on the blood-coagulation time.....505
Argy, W. P.: An unusual case of hyperglycemia 80
Arnoldi, W.: Effects of thyroxin on gaseous exchange of white rat 646
Aschheim, S.: cf. Zondek.....428
Asdell, S. A.: cf. Drummond-Robinson 508
Asher, L.: Chemical regulation of the heart beat by the liver.215
— Heart regulating hormone of the liver.....505
Bainbridge, H. W.: The reduced sensitivity to insulin of rats and mice fed on a carbohydrate-free excess-fat diet..... 78
Banting, F. G.: Diabetes and insulin 215
Barber, W. H.: Effects of iodine administration following hemithyroidectomy and unipolar ligation 94
Barborka, C. J.: Fatty atrophy from injections of insulin....518
Barclay, A. E. (Fellows): Hyperthyroidism treated by x-rays..346
Barer, Adelaide: cf. Gibson....642
Barlow, O. W. (Sollmann): Effects of epinephrin on response of frog heart to stimulation of accelerator nerve 501
— — Relation of epinephrine response to temperature and rhythmic vigor 617
— cf. Luckhardt 345
— cf. Sollmann 505, 625
Barnwell, J. B.: cf. Richards..624
Bartlett, W.: Goiter patients unsuited to thyroidectomy.....528
Bartlett, W. M.: Protein requirement as determined in diabetic children 637
Bassler, A.: Use of parathyroid extract in case of osteitis deformans 523
Bazin, Eleanor V.: cf. Rabinowitch 440
Beck, H. G.: Therapeutic indication for the use of anterior pituitary lobe substance.....327
Belding, D. L. (Wyman): Role of suprarenal gland in natural resistance of rat to diphtheria toxin 501
Bell, W. B.: Hermaphroditismus externus feminus 423
— Ovarian grafting 208
Bellerby, C. W.: cf. Parkes....514
Benjamin, H.: New clinical aspects of the Steinach operation.337
Benoit, J.: Histological studies of right genital gland of ovariectomized hen 423
Berganer, V.: Vasectomy in a dog 337

Berkeley, William Nathaniel: Principles and practice of endocrine medicine. (Book Review) 65
Berner, O.: A peculiar (hermaphroditic?) tumor 70
Berry, J. (Williamson, Trotter, Walton and Dunhill): Discussion on malignant diseases of thyroid gland 654
Best, C. H.: Effect of insulin on dextrose consumption of perfused skeletal muscle.....518
Bickel, A. (Kauffmann): Influence of ions on the effect of insulin on deoxidizable urine carbon 518
Bickel, G.: Cardiac disturbances in Basedow's disease.....646
Billings, A. E. (Paul): Tumors of late aberrant thyroids.....347
Binswanger, H. F.: cf. Strouse. 654
Blacher, L. J.: Dependence of secondary sex-character upon testicular hormones in Lebistes reticulatus 629
Blatherwick, N. R.: cf. Sansum. 84
Blau, N. F.: cf. Hancher..... 95
Blix, G.: Studies on diabetic lipemia I 638
— Studies on diabetic lipemia II. 639
— Studies on diabetic lipemia III. 640
Blodinger, J. (Klebanoff and Laurens): Suprarenal transplantation 67
Blotner, H. (Fitz): Diabetic gangrene, with particular reference to value of insulin in its treatment 429
Boas, E. P. (Shapiro): Observations on patients with hypertension and increased basal metabolic rate 506
Bock, Dorothee: cf. Meyer-Bisch. 432
Bolsi, D.: Sclerosis of anterior lobe of hypophysis with cachexia 213
— The hypophyseal cachexia....212
Bonilla, E.: Sudden death of endocrine origin 626
Boothby, W. M.: cf. Mussey....535
— (Sandiford, I., Sandiford, K. and Slosse, J.): Effect of thyroxin on respiratory and nitrogenous metabolism of normal and myxedematous patients 225
Borak, J.: Roentgenotherapy in exophthalmic goiter 649
Bortree, L. W.: cf. Swan.....206
Bourquin, Helen: Studies in diabetes insipidus 340, 632
Bowcock, H. M. (Wood): A case of infantile diabetes treated with insulin 78
Bowdon, Ruth: cf. Sansum.... 84
Bowman, K. M. (Grabfield): Effect of pituitary preparations on the blood sugar curve and basal metabolism 201
Bradley, R. C.: cf. Richards...624
Bram, I.: Goiter: current errors in etiology and treatment....181
Brahm, B.: cf. Zondek.....212
Brand, E. (Sandberg): Possible iodometric estimation of insulin 216
Brems, A.: Effect of adrenaline administered orally 617
Brennan, D. (Cohen): Necrosis of corpus luteum of pregnancy.208
Brigham, G. (Kiefer and Wheeler): Embolic gangrene of the extremities in diabetes.....219
Bright, Elizabeth M.: cf. Hunt..507
— cf. Cannon 619
Britton, S. B.: cf. Cannon..617-619
Brodsky, J.: Heteroplasty of endocrine glands in diseases of the nervous system..... 86
Brouha, L. (Simmonet): Effects of injection of follicular extracts into sexually mature females 71
— — Effect of injections of liquor folliculi 70
Brown, A.: cf. Tisdall.....645
Brown, G. E.: cf. Rowntree....301
Buchanan, Gwynneth: Testis and thyroid in a hen-feathered silver-grey Dorking cock.....626
Bugbee, Edwin P. (Simond): Standardization of preparations of ovarian follicular hormone. 191
— — The effects of injections of ovarian follicular hormone on body growth and sexual development of male and female rats 360
— — The increase of voluntary activity of ovariectomized albino rats caused by injections of ovarian follicular hormone 349
Buikstra, C. R.: cf. Major.....525
Burn, J. H. (Marks): The relation of the thyroid to the action of insulin.....216
Byron, C. S.: cf. Collens.....419

Cameron, A. T. (Moorhouse): Action of parathyroid extract on blood and cerebrospinal fluid calcium 86
— cf. Monteith 525
— cf. White 91
Cameron, H. G.: Cardaissin: A new cardiac accelerator extracted from the suprarenal glands 577
Cameron, G. R.: Influence of thyroid feeding on Islets of Langerhans 435
Cammidge, P. J. (Howard): Hyperglycemia as a Mendelian recessive character in mice.....641
Camp, C. D.: cf. Newburgh....537
Camp, J. D.: Sella turcica..... 75
Campbell, D.: cf. Geiling.....633
Campbell, W. R.: cf. Macleod.. 64
Cannon, W. B. (Britton): Influence of motion on medulliadrenal secretion 617
— (Querido, Britton and Bright): Rôle of adrenal secretion in chemical control of body temperature 619
Cantarow, A. (Caven and Gordon): Changes in chemical and physical characteristics of the blood following administration of parathyroid hormone 524
Cantero, A.: Bacteriology of the thyroid gland in goiter.....225
Carnot, P. (Terris): Action of hypophyseal extracts upon intestinal peristalsis and constipation 341
Carrasco-Formiguera, R.: Treatment of diabetes by raw fresh-gland (pancreas) 79
Cascao de Anciaes, J. H.: Effect of insulin and pituitary extract on gastric secretion.....519
Castaldi, L.: Adrenal cortex and somatic growth 67
Cattell, R. B.: Elimination of iodine in urine in normal patients and in exophthalmic goiter 529
Caven, W. R.: cf. Cantarow....524
Caylor, H. D. (Schlotthauer): Cretinism and myxedema produced experimentally in swine.650
Ceresoli, A.: Action of placental-ovarian and luteinic extracts on female generative organs.. 76
Chabrol: cf. Tournade.....336
Chahovitch, X.: cf. Giaja.....
.....419, 502, 622
Chambers, W. H. (Milhorat): Effect of insulin and muscular exercise on protein metabolism.641
Chang Hsi Chun: Present status of the problem of tryptophan and the thyroid gland.....188
— Specific influence of thyroid gland on hair growth.....529
Choremis, E.: cf. Schiff.....644
Clark, E. P.: cf. Collip.....86, 645
Clark, G. A.: Influence of vagus on islets of Landerhans..... 79
Clute, H. M.: Iodin solution and rest in surgery of exophthalmic goiter 226
Cohen, M.: cf. Brennan.....208
Collens, W. S. (Shelling and Byron): Effect of adrenin upon blood sugar following ligation of the hepatic artery.....419
Collin, R.: Functional relationship between pituitary body and tuber centers.....516
Collip, J. B.: Internal secretions of the parathyroid glands.... 86
— Therapeutic value of parathyroid hormone 524
— (Clark): Physiological action of a parathyroid hormone.. 86
— — Relation of guanidine to parathyroid tetany.....645
Comolli, A.: cf. Frugoni.....432
Coppola, A.: Late eunuchoidism and syphilitic dyspituitarism..213
— Syndromes of hypothyroidism and obsessive syndrome....227
Cordier, Miss G.: cf. Ducloux...429
Cori, G. T.: Insulin content of tumor tissue 429
Coro, A. J.: Insulin in treatment of denutrition 519
Courrier, R.: Sexual cycle in the female of mammals.....209
Crawford, J. H. (Hartley): Influence of automic nervous system on function of thyroid gland 435
Cruto, A.: cf. Trocello..... 85
Curtis, F. R.: cf. Vincent..484, 567

Danielopolu, D. (Simici and Dionitriu): Action of adrenaline upon motility of small intestine 205
Davidoff, Leo M.: Studies in acromegaly. II. Historical note.453
— Studies in acromegaly. III. The amanesis and symptomatology in 100 cases....461
Davidson, J. R.: Nephrosis of thyroid origin 529

Davis, C. H.: Thyroid hypertrophy and pregnancy.....530
De Jongh, S. E.: cf. Laquer....632
Demuth, F.: Pathology and physiology of milk digestion in infants 626
Desogus, V.: Pineal body of birds 92
Dickson, I. Wanless: Rational gland therapy for women, particularly in relation to menstruation. (Book Review)... 65
Dickson, W.: Endocrine basis of pernicious vomiting in pregnancy 421
Dimitriu, C.: cf. Danielopolu...205
Dinsmore, R. D.: Hyperthyroidism in children.....227
— The care of the handicapped goiter patients 227
Doisy, E. A.: cf. Ralls.....427
— (Ralls and Jordan): Some chemical and physiological properties of the hormone of the liquor folliculi.....273
Dragstedt, L. R. (Sudan): Prevention and control of parathyroid tetany by oral administration of kaolin.....525
Drake, T. C. H.: cf. Tisdall....645
Drummond-Robinson, G. (Asdell): Relation between corpus luteum and mammary gland..508
Dunhill, T. P.: cf. Berry.....654
Ducloux, E. (Cordier): Comparative action of pancreatic extract of Acanthias vulgaris and of insulin from beef.....429
Duke, W. W.: Asthma, hay fever, urticaria and allied manifestations of allergy.....506
Duncan, E. E.: cf. Stander.221, 429
Dupre, C.: cf. Hartman.....291
Durrant, E. P.: Effect of subcutaneous injection of corpus luteum extract on voluntary activity in the female albino rat 286
Duzar, J.: Adrenaline treatment of chorea minor.....620
— (Hensch): Adrenalin tetany.620
Dye, J. A.: Comparable cell changes in central nervous system in cretinism, parathyroid tetany and fatigue..... 87

Eckel, J. L.: cf. Winkelman.... 69
Eliason, E. L. (Wright): Diabetic and arteriosclerotic gangrene of lower extremities.....429
Eisner, G.: High carbohydrate diet and its relation to blood sugar and glycogen contents of organs 641
Eliasberg, H.: cf. Greenwald...622
Else, J. E.: Adenomatosis..... 94
— (Grow and Lemery): Regeneration of the thyroid.....165
Emery, F. E.: Effects of testicular extract upon pregnant guinea-pig and fetus.....509
Engel, W.: Innervation of thyroid 435
Epstein, A. A.: Thyroid therapy and thyroid tolerance in chronic nephrosis 531
Ericson, G.: cf. Adolph.....632
Erichson, K.: Adrenaline glucemia and respiratory metabolism 621
Estrada, O. P.: Phenomena following suprarenalectomy in dogs 621
Etienne, G. (Richard): Interrelationship of Basedow's and Addison's diseases 435

Farrell, J. I.: cf. Ivy.....430
Faure, W.: cf. Loewe.....338
Felberbaum, D. (Finesilver): Substernal thyroid 227
Feldman, E.: Spurious hermaphroditism of suprarenal origin.502
Fellner, O. O.: Presence of feminine sexual lipoid in bird eggs and in ovaries of fish..... 71
Fellows, F. M.: cf. Barclay.....346
Fernald, Mabel: cf. Oleson.....439
Ferrero, V.: Autolysis of the thyroid gland 94
Fienblatt, H. M.: Carcinoma of cortex of suprarenal gland with virilism 502
Finesilver, B.: cf. Felberbaum..227
Fink, E. B.: Case of diabetes insipidus associated with syphilis of the hypophysis.....317
Fisher, D. (Mensing): Glucose infusions and insulin in the preparation of poor surgical risks 80
— — Insulin-glucose treatment of surgical shock and non-diabetic acidosis 216
Fisher, L. (Rogatz): Insulin in malnutrition 642
Fisher, N. F. (Larson): Effects of parathyroid gland extract on normal and parathyroidectomized dogs 87
Fitz, R.: cf. Blotner.....429

Fitzgerald, R. R.: Effect of two different preparations of iodine upon the preoperative basal metabolic rate in exophthalmic goiter 228
Fleisher, M. S.: cf. Wilhelmj.....235, 442, 443
Fletcher, A. G.: cf. Starr.....222
da Fonseca, F.: Edemas and insulin 519
Fornet, W.: Insulin by mouth..642
Foshay, L.: Physical and chemical studies of human blood from cases of diabetes mellitus 217
Franco, P. M.: Adrenals in pulmonary tuberculosis 67
Frank, R. T. (Goldberger): Female sex hormone.....509, 629
— (Gustavson, Holloway, Hyndman, Krueger and White): Occurrence and present chemical status of the female sex hormone.....260
— (Kingery and Gustavson): Female sex hormone..... 71
Frank, L. W.: Surgical care of the toxic thyroid.....436
Frankl, O.: Pregnancy blindness and acromegaly 76
Frey, E.: Effect of hypophysin and thyroid extract on secretion of urine.....436
Freydank, W.: cf. Löhr.....230
Friedman, T. E. (Webb): Trypsin and insulin injections into the pancreatico-duodenal artery 81
Frugoni, C. (Scimone and Comolli): Transplantation of human parathyroid in a case of chronic tetany in an adult.....432
Fukui, T.: Carbohydrate loss from the liver of hyperthyroidectomized rats 228
— Relation of pituitary to carbohydrate metabolism 213
Funk, C.: Chemical nature of insulin 218
Futakawa, M.: Influence of ligation of the seminal ducts on internal secretion of testicles. 72

Gager, L. T. Surgical complications of diabetes under insulin treatment.....218
Gans, M. (Hoskins): Fatigability of castrated rats..... 56
Garipuy (Mériel): Intracardiac injection of epinephrine in apparent death of new-born.....335
Garrelson, L. (Santenoise and Le Grand): Action of pancreas on vagus 218
Gates, F. L. (Grant): Endocrine glands of rabbits fed cod liver oil or irradiated cholesterol...506
Geiling, E. M. K. (Campbell): Variations in blood pressure induced by repeated injections of extracts of posterior lobe of pituitary 633
Geist, S. H. (Goldberger): Study of basal metabolism, weight and blood chemistry following bilateral oophorectomy.....630
Gellhorn, E. cf. Abderhalden....419
Giaja, I. (Chahovitch): Inefficiency of pilocarpine upon energy metabolism in absence of suprarenal capsules.....622
— — Maximum metabolism and suprarental capsules....502
— — Total metabolism and adrenals 419
Gibson, R. B. (Greer and Barer): Utilization of protein, carbohydrate and fat in hypoglycemia in diabetes requiring insulin..642
Gilman, P. K. (Kay): Total thyroidectomy in thyrotoxicosis of the exophthalmic type.....228
Goldberg, S. A. (Simpson): Osseous and muscular changes in thyroidectomized sheep..... 94
Goldberger, M. A.: cf. Frank.....509, 629
— cf. Geist.....630
Goldener, J. E.: cf. Abelin.....428
Göttche, O.: Protein action in children before and during puberty 209
Gougerot, H. (Peyre): Hypoadrenalism and dysinsulinism.218
Gould, V. L.: cf. Johnston.....209
Gordon, B.: cf. Cantarow.....524
— (Roark and Lewis): Effect of parathyroid hormone on certain signs and symptoms in tuberculosis 433
Gottesman, Jessie M. (Gottesman): Effect of nephrectomy and suprarenalectomy in rat on resistance 502
Gottesmann, J.: cf. Gottesmann.502
Grabfield: cf. Bowman.....201
Grant, J. H. B.: cf. Gates.....506
Green, H. (Robbins): Insulin in infant feeding.....430
Greenwald, H. M. (Eliasberg): Pathogenesis of death from burns 622
Greer, Lillian: cf. Gibson.....642

Grigsby, C. M.: Hypothyroidism. 95
Grow, Horace M.: cf. Else.....165
Gunther, F.: cf. Meyer-Bisch...432
Gustavson, R. G.: cf. Frank..71, 260

Haberlandt, L.: Hormone of heart-movement 422
Haines, S. F.: cf. Willius.....235
Hajos, Charles: Anaphylaxis and internal secretions.....560
Halban, J.: Tumors and sex characteristics 72
Hammerschlag, E.: A case of retarded growth..... 72
Hammett, Frederick S.: Relations of thyroid and parathyroids to glands of internal secretions..385
— Response of body growth to thyroid and parathyroid deficiency 29
— Rôle of thyroid apparatus in growth of adrenals.....237
— Rôle of thyroid apparatus in growth of hypophysis.....145
— Rôle of thyroid apparatus in growth of pancreas.....248
— Rôle of the thyroid apparatus in growth of productive system 532
— Rôle of thyroid apparatus in growth of thymus.....370
Hancher, K. G. (Hupper, Blau, and Rogers): Changes in the blood sugar which follow experimental thyroid feeding.... 95
Hannon, R. R.: cf. McClellan...432
Hart, C. P.: cf. Lacquer.....210
— cf. Laquer.....632
— (de Jongh, Laquer and Wijsenbeek): Hormone of the ovarian cycle..... 73
Hartman, Carl (Dupre and Allen): Effect of follicular and placental hormones upon the mammary glands and genital tract 291
Hartman, F. A.: Experiments with adrenal insufficiency.....205
— (Rose & Smith): Influence of burns on epinephrin secretion 503
Hartley, J. N. J.: cf. Crawford..435
Hassall's corpuscles, formation of 93
Häusler, H.: Inhibition of glucose uptake by erythrocytes through diabetic plasma.....519
— (Heesch): Insulin and phosphate and potassium content of blood.....219
Häusler (Loewi): Insulin and glucose partition between fluid and non-fluid systems.....218
Hawley, Estelle E. (Murlin): Change in oxygen absorption after insulin..... 81
Heesch, O.: cf. Häusler.....219
Heid: Contribution to the iodine treatment of goiter in children.650
Heinlein, H.: cf. Steinach..211, 339
Hemholtz, H. J.: Exophthalmic goiter in childhood.....534
Henckel, K. O.: Disproportion of the extremities in a eunuchoid giant 73
Hensch, W.: cf. Duzar.....620
Herrman, C.: Pathogenesis of sporadic cretinism 650
Hertzler, A. E.: Development and nature of so-called toxic adenomas 175
Hirsch, I. S.: X-ray treatment of hypofunction of the ovary....510
Hisaw, F. L.: Influence of ovary on absorption of pubic bones of gopher 73
Hjort, A. M. (Robison and Tendick): Parathyroid extract, inducing hypercalcemia in dogs 88
Hofmann, E.: Internal secretion of the pineal gland of the rat..224
Holloway, J.: cf. Frank.....260
Horvath, B.: cf. Janossy.....516
Hosford, Geo. N.: cf. Kerr.....126
Hoskins, R. G.: cf. Gans..... 56
Houssay, B. A. (Molinelli): Adrenal secretion produced by asphyxia 419
Howard, C. C.: Study of jaw and arch development considered with normal and abnormal skeleton 507
Howard, H. A. H.: cf. Cammidge.641
Hunt, H. B. (Bright): Locus of the calorigenic action of adrenalin with observations on tissue metabolism 507
Hupper, Marjorie: cf. Hancher.. 95
Hyndman, J.: cf. Frank.....260

Ivanoff, G.: Anatomy of the paraganglia of man..... 68
Ivy, A. C. (Farrell): Proof that a hormone is concerned in external pancreatic secretion....430

Jackson, A. S.: Iodin hyperthyroidism 95
— Goiter and other diseases of the thyroid gland.....616

Jaffé, H. L.: Effect of bilateral suprarenalectomy on life of rats 503
— The influence of the suprarenal gland on the thymus. III. Stimulation of the growth of the thymus following double suprarenalectomy in young rats..... 92
— (Plavska): Formation of Hassall's corpuscles 93
— — Functioning autoplastic suprarenal transplants..420
Janossy, G. (Horvath): Demonstration of hypophyseal secretion in human cerebrospinal fluid taken from cisterna magna 516
Jess, F.: Prophylactic intravenous injection of pituitary extract in third stage of labor.633
John, H. J.: Non-diabetic glycosuria 115
— Possible relationship between acromegaly and diabetes...344
— Spontaneous disappearance of diabetes 81
— Variations in blood sugar content following administration of insulin.....343
Johnston, C. G. (Gould): Corpus luteum as the source of follicular hormone 209
Jordan, C. N.: cf. Doisy.....273
— cf. Ralls 427
Joseph, S. (Raban): Suprarenal hemorrhage in the new-born.. 68
Joslin, E. P.: Reduction of death rate from diabetes, particularly diabetic coma in Massachusetts 82
de Jongh: cf. Hart..... 73
— cf. Lacquer 210
Junkersdorf, P. (Kohl): Action of choline in starvation.....430
— (Török): Action of adrenine in starvation 420

Kahn, R. H.: Central stimulation of adrenals and paraganglia during insulin intoxication....504
— Central stimulation of the adrenals and abdominal chromaphil body during insulin poisoning 421
Kamitani, E.: Effect of insulin on composition of milk..... 80
Katayama, I. (Killian): Lactic acid and inorganic phosphorous of normals and diabetics after glucose 82
Kauffmann: cf. Bickel.....518
Kay, W. E.: cf. Gilman.....228
Kendall, A. I.: Effect of insulin upon metabolism of certain bacteria 82
Kerley, G. G.: Cretinism. Follow-up report of eight cases...652
Kerr, Wm. J. (Hosford and Shepardson): Treatment of senile cataract with thyroid extract..126
Kiefer, E. D.: cf. Brigham.....219
Killian, H.: Action of adrenalin, pituitary extract, and histamin on capillaries of frog tongue..205
Killian, J. A.: cf. Katayama.... 82
Kimball, O. P.: Induced hyperthyroidism 95
Kingery, H. M.: cf. Frank..... 71
Kitchen, H. D.: Goiter in children—a study of treatment...534
Kiyono, H.: Mid-brain changes in diabetes insipidus.....213
Klaften, E.: Internal secretion, basal metabolism and transformation of protein in pregnancy 622
Klebanoff, H. E.: cf. Blodinger. 67
Kliatshco, M. G.: cf. Shapiro...215
Knaus, H. H.: Action of pituitary extract administered by the alimentary canal 341
Kohl, A.: cf. Junkersdorf.....430
Koref, O. (Mautner): Absorption and insulin 344
Korst, L.: Case of "eunuchofeminisimus" with Parkinsonism and psychic alterations following epidemic encephalitis..631
Kovacs, F.: The influence of the male sex gland on the female. 73
Krantz, C. I. (Means): Epinephrin reaction in obesity...421
Krehbiel, O. F.: cf. Rohdenberg.422
Krogh, A.: Pituitary principle in circulating blood 634
Kross, I.: Causation of the onset of labor by parabiosis during pregnancy 423
Krueger, H.: cf. Frank.....260
Kunde, Margaret M.: Studies on experimental cretinism 436
— (Williams): Nutritional disturbances of bones.....436
Kurokawa, K.: Histological studies of normal and pathological human parathyroid glands 88
Kylin, E.: Effect of different ovarian constituents on the blood sugar content. 512

Lacquer, E.: Ovarian hormone and metabolism 513
— (Hart, de Jongh, and Wijsenbeek): Estrus-inducing hormone 210
Lafferty, R. H. (Phillips): Use of corpus luteum to prevent nausea in radiation therapy of uterine conditions 210
Lahey, F. H.: Method of palpating lobes of thyroid.....229
— Quadriceps test for myasthenia of thyroidism.....535
— Substernal goiter 535
— Transplantation of parathyroids in partial thyroidectomy 437
Lampe, W.: The activity of human pituitary extracts..... 76
Lange, F.: cf. Frank.....260
Laquer, E. (Hart and De Jongh): Menoform, the hormone of the oestrous cycle 632
— cf. Hart 73
Larson, E.: cf. Fisher..... 87
Laurens, H.: cf. Blodinger..... 67
Lawaczek, H.: Hexophosphoric acid of blood in normal and diabetic organism and its relation to adrenalin and insulin..430
Lawrence, C. H.: Hypothyroidism with and without myxedema.. 96
Lawrence, R. D.: Effect of exercise on insulin action in diabetes 520
Lazar, E. (Weiser): The endocrine glands, especially pituitary, in idiocy.....634
Lee, Milton O.: Effect of thyroparathyroidectomy and parathyroidectomy 43
— Effect of low environmental temperatures 513
Le Grand, A.: cf. Garrelson....218
Leidenius, L.: cf. Seitz..... 74
Lemery, Charles W.: cf. Else...165
Lereboullet, P.: Rôle of hypophysis in infantile dystrophies.516
Lewin, B. D.: Interstitial gland cells in human ovary.....337
Lewis, A. K.: cf. Gordon.....433
Lewis, J. T. (Magenta): Mechanisms of recovery after insulin 83
Liek, E.: Exophthalmic goiter question 97
Lignac, G. O. E.: Concerning the origin of concretions and pigment in the pineal gland..... 92
Liljestrand, G. (Stenström): Blood flow and blood pressure in exophthalmic goiter..... 97
Lindeberg, W.: Influence of thymus extirpation on growth and the endocrine organs.....346
Lipschütz, A.: Experimental hermaphroditism and antagonism of sex-glands 425
— Hyperfeminisation and protracted rut 425
— Significance of spermatogenous substance for production of female hormonal effects 424
— (Adamberg, Tiitso, and Vesnjakov): Influence on ovarian transplants through ovaries in situ.....424
— (Tiitso, Suvikul, Vesnjakov): Disturbance of spermatogenesis and female hormonal effect 424
— (Tiitso, Voss, Vesnjakov and Adamberg): Different sex-reaction on ovarian transplant 425
— (Voss): Significance of operative interference on the testis for condition of female hormonal effects.....423
Loeb, L.: Autotransplantation and homoiotransplantation of thyroid gland in the guinea pig 437
— Influence of iodine on hypertrophy of the thyroid gland.437
Loeper et al.: Rôle of suprarenals in blood sulphur regulation 504
Loewe, S. (Lange and Faure): Effect of the cyclic hormone when administered by mouth.338
— (Llison): A simple method for the biological assay of hypophysis preparation....214
Loewi, O.: cf. Häusler.....218
Löhr, H. (Freydank): Action of thyroxin on the human organism 230
Llison, M.: cf. Loewe.....214
Luckhardt, A. B. (Barlow and Weaver): Method of preparing a highly active pancreatic secretion solution 345

MacKay, E. M. (MacKay): Adrenal hypertrophy in experimental uremia 623
— Compensatory hypertrophy of adrenal cortex 623
MacKay, Lois L.: cf. MacKay...623
Maclean, Aubrey B. (Sullivan): Blood sugar in status thymicolymphaticus 346

Macleod, J. J. R. (Campbell): Insulin and its use in diabetes (Book Review) 64
— (Taylor): Effects in normal and parathyroidectomized dogs and herbivorous animals of parathyroid extracts 89
Mackenzie, G. M.: Anemia in hypothyroidism 230
Macneill, N. M.: Infantile thymic hyperplasia 225
Magenta, M.: cf. Lewis..... 83
Major, R. H. (Buikstra): Effect of parathyroid extract and liver extract on hypertension produced by guanidine compounds.525
Mansfeld, G.: Surgical treatment of diabetes 83
Marañon, G. (Soler): Progressive lipodystrophy and hyperthyroidism 1
Marine, D.: Relation of suprarenal cortex to thyroid and thymus glands 434
Mark, R. E.: Action of thyroid preparations on growing organisms 231
— Physiological evaluation of thyroid preparations.....231
— Thyroid and carbohydrate tolerance 438
— (Stradal): Hyperthyroidization experiments on dogs..438

Subjects

Abdominal chromaphil body, central stimulation of during insulin poisoning 421
Acromegaly, amanesis and symptomatology in 100 cases.....461
— and calcium content of blood.508
— — diabetes 81, 344
— — frequency blindness 76
— relation to gigantism..... 17
— studies in 453
— symptomatology in 100 cases.461
Addison's disease, ephedrin therapy in 301
— — relation of, to Basedow's disease .....
— — substitution therapy and pituitary extract in.....206
Adenomatosis and hyperthyroidism 94
Adiposis dolorosa 69
Adrenal ablation in parents, influence of on endocrine system of offspring 74
— and action of pilocarpine....622
— — internal secretion of pancreas 218
— — nervous factors in blood pressure 336
— — oestrous cycle 336
— — paraganglia, central stimulation of, during insulin intoxication 504
— — parathyroid deficiency 237
— — total metabolism 419
— — thyroid deficiency 237
— bodies, effects of fatigue and temperature on, in the rat.505
— burns cause excessive activity of 503
— central stimulation of, during insulin poisoning 421
— cortex and somatic growth... 67
— — compensatory hypertrophy of 623
— — extracts, effect of.....625
— — hyperplasia and virilism of.623
— epinephrin content of, in diphtheritic intoxication 206
— extirpation in dogs.....621
— — and basal metabolism..... 67
— gland, carcinoma of cortex of, with virilism 502
— growth response of, to thyroid and parathyroid deficiency.385
Adrenal hemorrhage of, in newborn 68
— hyperactivity of, in cases of severe burns 622
— hypertrophy in experimental uremia 623
— in control of temperature....619
— — pulmonary tuberculosis ... 67
— insufficiency 68
— — studies on, in dogs.....624
— — treated with extracts.....205
— interrelation with thyroid....106
— new cardiac accelerator extracted from 577
— prenatal growth and natal involution of 421
— relation of, to thyroid..... 98
— removal of, and thermogenesis 502
— secretion, influence of motion and emotion on.....617
— — produced by asphyxia.....419
— transplantation of 67
— tumors of, and sex characteristics 72
Adrenalectomy, relation of, to salt content of rat.....422
Adrenalin, action of, in spasmophilia 77
— — — — starvation 420
— — — on capillaries 205
— — — — nitrogen, creatinine and creatine excretion 206
— and acid diet.....215
— — dilation of thyroid blood vessels 435
— — hexophosphoric acid.....430
— — O_2 consumption and Co_2 production 501
— — tonus of decerebrate rigidity 624
— calorigenic action of, and tissue metabolism 507
— clinical action of, upon premature contractions 421
— comparative experiments on action of 419
— deficiency as cause of sudden death 626
— effect of, on denervated and atropinized pupil 220
— — — — glomerular blood vessels 624

Adrenalin, effect of on motility of small intestine 205
— — — — — photographic plate ..626
— — — — oral administration of..617
— — — — upon blood sugar following ligation of hepatic artery 419
— glucemia and respiratory metabolism 621
— influence of, on thoracic lymph of dog.....432
— locus of calorigenic action of.507
— tetany 620
— treatment of chorea minor...620
Anaphylaxis and internal secretions 560
Angina pectoris as complication in exophthalmic goiter.....539
Anterior hypophyseal fluid, effects of, on gestation in rat.....636
— pituitary therapy 327
Arteriosclerotic gangrene of lower extremities 429

Basal metabolic rate in cardiac disease and hypertension.....507
— — — — method of determining.440
— metabolism effect of pituitary preparations on 201
— — — in pregnancy 622
— — — study of, following bilateral oophorectomy 630
Basedow's disease, cardiac disturbances 646
Bilateral oophorectomy, study of basal metabolism, weight and blood chemistry following....630
Blood as transport of thyroxin..541
— circulation of, effect of posterior lobe pituitary extract on 567
— sugar curve, effect of pituitary preparations on 201
— — — in status thymicolymphaticus 346

Cachexia, hypophyseal, review of.212
Cancer inoculation, prepuberty castration in relation to..... 74
Carbohydrate metabolism and dehydration 644
— — — of infants with diarrhea, infections and acute intestinal intoxication 645
Cardaissin: A new cardiac accelerator extracted from suprarenal glands 577
Castration and fatigability of rats 56
— — — thymusectomy, relation of, to growth 426
— effect of, on pituitary..... 74
Castration prepuberty, effect of, on cancer inoculation..... 74
— relation of, to salt content of rat blood 422
Choline, action of, in starvation.430
Chorea minor, adrenaline treatment of 620
Chromaffin system of man, persistent and nonpersistent, anatomy of 68
Colloid goiter, with hyperplasia and new acini formation.....165
Corpus luteum and female sex hormone 260
— — — — mammary gland 508
— — — extract, action of, on female generative organs. 76
— — — — effect of, on voluntary activity 286
— — — — influence of, on blood-coagulation time 505
— — — in radiation therapy of uterine conditions 210
— — — necrosis of, in pregnancy..208
— — — source of follicular hormone 209
— — — specific inhibitory hormone of 338
Cretinism, a follow up report of.652
— and fatigue comparable cell changes in 87
— — — myxedema produced experimentally in swine.....650
— sporadic, pathogenesis in.....650
— studies on experimental.....436

Depressor effect of tissue extracts 484
Dehydration and carbohydrate metabolism 644
Diabetic children, protein requirement in 637
— gangrene and insulin treatment 429
— — — of lower extremities.....429
— lipemia, studies on..638, 639, 640
Diabetes, address on.....521
— and acromegaly 344
— — — insulin 215
— — — — action, experiments on.519
— changing conception of, as a disease 432
— clinical and pathological studies of 221
— combined with hyperthyroidism 628
— effect of exercise on insulin action in 520
— in children, best method of insulin distribution in.....642
— — — — insulin distribution in..643

Diabetes in children, pathology and therapy of.....643
— insulin in 64
— necropsy findings in.....222
— reduction of death rate from. 82
— spontaneous disappearance of. 81
— — treatment of 83
— surgical complications and insulin treatment 218
— treatment of, by raw pancreas 79
— utilization of protein, carbohydrate and fat in hypoglycemia in 642
— insipidus 342
— — and syphilis of hypophysis.317
— — following encephalitis 631
— — mid-brain variations in...213
— — studies in 340, 632
— mellitus 80
— — high carbohydrate diets in. 84
— — human blood studies in...217
— — hypothyroidism and 499
— — nitrogen balance on a low protein diet in.....432
— — raw pancreas in.....345
Dyspituitarism, syphilitic, and eunuchoidism 213
— thyroid opotherapy in.....444

— calcium excess and production of 104
— diffuse adenomatous 94
— errors in etiology and treatment of 181
— exophthalmic 97
— — roentgenotherapy in 649
— in children—a study of treatment 534
— iodine administration in exophthalmic 100
— — lack and production of....104
— — treatment of 95
— patient, care of.....227
— — unsuited to thyroidectomy.528
— relationship of, to potential foci of infection.....232
— simple and toxic.....181
— study on etiology of.....104
— substernal 535
— — iodid in 100
— surgical treatment of..... 99
— toxic, use of iodine in..... 95
Gonads, behavior of, when transplanted 75
— cross-transplantation of 428
— effect of, on sedimentation of red corpuscles 69
— growth response of, to thyroid and parathyroid deficiency.385
Goiter, tumors of, and sex characteristics 72
Guanidine and the parathyroids.445
— salts, effect of administration of, on peripheral nerves in fowls 526

Hemithyroidectomy, and iodine administration 94
Hermaphroditism, spurious, of suprarenal origin 502
Hermaphroditismus externus femininus 423
Hormones, action of, upon digestion 626
— and nervous regulation of fat metabolism 422
— female sex and puberty..... 71
— of heart-movement 422
— of parathyroid, physiological action of 86
— — liquor folliculi, chemical and physiological properties of 273
— — liver, heart regulating activity of 505
Hyperepinephrinism, clinical symptomatic 413
Hyperfeminisation and protracted rut 425
Hyperglycemia as recessive character 641
— effect of diet on.....215
Hypernephroma in horseshoe kidney 493
Hypertension and increased basal metabolic rate 506
Hyperthyroidism and barring in poultry 442
— — progressive lipodystrophy.. 1
— — diabetes 628
— — interstitial tissue 211
— carbohydrate loss from liver in 228
— — sedimentation of red corpuscles 69
— in children 227
— iodin in treatment of.....441
— local sympathetic reflex in...440
— quadriceps test for myasthenia of 535
— the heart and its management in 234
— treated by x-rays.....346
— treatment and prognosis in..101
— use of iodine in..... 95
— vital capacity in 233
— without increased metabolism symptom complex resembling 654
Hyperthyroidization experiments on dogs 438

Hypoadrenalism and disinsulinism 218
Hypoglycemia and choline action.430
——insulin action 430
— coma, due to insulin overdosage 521
Hypophyseal cachexia, review of.212
— extracts, action of, upon intestinal peristalsis and constipation 341
— secretion in human cerebrospinal fluid 516
Hypophysectomy, disabilities caused by, and their repair...635
Hypophysin extract, effect of on secretion of urine.....436
Hypophysis and development of female genital system.....635
——fat dystrophy 215
——insulin, antagonistic action of, upon water economy.522
— effect of castration on..... 74
————extract of posterior lobe of on circulation.....567
— enlargement of, during pregnancy 76
— extract, human 76
——presence of, in cerebrospinal fluid 214
— functions attributed to.....517
— grafts, effect of.....635
— growth response of, to thyroid and parathyroid deficiency.385
— in infantile dystrophies 516
— preparation, a method for the biological assay of 214
— sclerosis of anterior lobe, and cachexia 213
— syphilis of and diabetes insipidus 317
— thyroid apparatus and growth of 145
— tumor, roentgen-ray treatment of 77
Hypothyroidism and diabetes mellitus 499
— and normal jaw and arch development 507
——thyroid extract 104
— anemia in 230
— syndromes of, and obsessive syndromes 227

Infundibulum, effect of acidity of solvent on stability of active principle of 517
Insulin action in diabetes, effect of exercise on.....520
——of, in spasmophilia..... 77
— activity of, with carbohydrate-free, excess-fat diet..... 78
— and absorption 344
Insulin and acid diet.....215
——change in oxygen absorption 81
——diabetes action experiments on 519
——edemas 519
——epinephrin, action of on liver 83
——glucose infusions in surgical cases 80
————partition between fluid and non-fluid systems.218
——guanidine, action of, on permeability of erythrocyte 84
——hexophosphoric acid.....430
——hypophysis, antagonistic action of, upon water economy 522
——its use in diabetes..... 64
——phosphate and potassium content of blood.....
——surgical complications of diabetes 218
——trypsin injections into pancreatic-duodenal artery.. 81
——variations in blood sugar content 343
— by mouth 642
— chemical nature of.....218
— content of tumor tissue.....429
— crystallization of 637
— distribution, best method of, in diabetes in children.642, 643
——of, in normal and pancreatic diabetic dog.....220
— effect of high temperature on. 85
————on composition of milk. 80
————gastric secretion....519
————metabolism of certain bacteria 82
————protein metabolism..641
————respiratory exchange of decerebrate and decapitate cats....521
— fatty atrophy from injections of 518
— glucose treatment of surgical shock and non-diabetic acidosis 216
— hypoglycemia, use of phosphates in combating.....428
— in diabetes 215
——infant feeding 430
——malnutrition 642
——treatment of denutrition...519
————glycosuria in newborn 644
————infantile diabetes.... 78
— influence of ions on effect of.518
————nutritive condition on initial fall in blood sugar after..... 85

Insulin, influence of, on thoracic lymph of dog.....432
— inhibition of fat mobilization.522
— iodemetric estimation of.....216
— intoxication, central stimulation of adrenals and paraganglia during 504
— lactic acid and inorganic phosphorous 82
— mechanisms of recovery after administration of 83
— overdosage as cause of hypoglycemia coma 521
— poisoning, effect of on adrenals and abdominal chromaphil body 421
— reaction, an unusual blood sugar finding during 521
— relation of the thyroid to the action of 216
— shock, sugar content of cerebrospinal fluid during.....219
— treatment in diabetic gangrene 429
— use of, in eclampsia.....221, 429
— — — in surgery and obstetrics 222
— — — — total extirpation of pancreas 520

Internal secretions, anaphylaxis and 560
— — in pregnancy 622
"Interrenalism," borderline forms of 623
Interstitial cells in human ovary.337
Iodin in treatment of hyperthyroidism 441
— preparations and metabolic rate in exophthalmic goiter.228
— treatment of goiter in children 650
— solution and rest in surgery of exophthalmic goiter 226
— use of in exophthalmic goiter.100
Iodids, use of in substernal goiter 100
Islets of Langerhans, influence of thyroid feeding on.....435

Kidney, hypernephroma in 493

Lipodystrophy, progressive and hyperthyroidism 1
Liquor folliculi, chemical and physiological properties of hormone of 273
Liver, and the chemical regulation of the heart beat.....215
— incretory influence on change of fat into carbohydrate in.523
Liver, nervous and incretory influence on fat changes in the liver 523

Mammal, effect of follicular and placental hormones on.....291
Mammary gland and corpus luteum 508
Menoform, effect of, on gas metabolism 632
— — on senile mice 632
— hormone of oestrous cycle...632
Menstrual function, regulation of by x-ray treatment.....510
Menstruation and ovulation 425
— gland therapy in..... 65
Metabolic rates, lowered, with special reference to young women 538
Metabolism and ovarian hormone.513
— effects of parathyroid feeding on 91
Metamorphosis, axolotl, reaction to thyroid gland hormones...550
Myxedema and cretinism produced experimentally in swine.650
— angina pectoris as complication in 539
— observations on the heart in..652
— simulating pernicious anemia.535
— thyroid in relation to..... 96
— treatment and prognosis in...101
— thyroxin in 225
— status of the heart in.....105
Myxedematous ascites removed by thyroid extract 652

Narcolepsy, a symptom complex.656
Nephrectomy, effect of, in rat on resistance 502
Nephrosis of thyroid origin.....529
Non-diabetic glycosuria 115

Oestrus and injections of liquor folliculi 70
— cycle and adrenals.....336
— — in rat 43
— effect of follicular extract on. 71
— producing hormone, distribution in ovary of.....514
Oestrual cycle, effect of temperature on 513
— — studies on 513
— phenomena and female sex hormone..... 71
Organ extracts, influence of, on blood-coagulation time 505
Ovarian and placental hormones, functional similarity of.....515

Ovarian constituents, effect of on blood sugar content.....512
— extract, and dissolution of symphyses 73
— — effect of on senile female organism 339
— — reactivating action of in senile females 211
— — use of, in treatment of cataracts 126
— follicular hormone, clinical tests in 514
— — — effect on body growth and sexual development of male and female rats 360
— — — injections of 349
— — — standardization of 191
— graft, therapeutic use of 426
— grafting 208, 210
— hormone and genitalia of opossum 291
— — — metabolism 513
— — aqueous solution of.....212
— — effect of injections of..... 70
— — methods of purifying.....427
— — studies in variation of....207
— lipoid, relation of, to puberty and menstruation, pregnancy and lactation..... 71
— transplant and ovaries in situ.424
— — different sex reaction on..425
— — sex differences in.....425
— transplantation, remote results of 211
— tumor (hermaphroditic)..... 70
Ovariectomized albino rats, increase of activity of.....349
Ovariectomy, and histological studies of right genital gland.....423
— effect of double, and injury to large follicles 208
Ovaries and basal metabolism...622
— — sex cycle 209
— extracts, action of, on female generative organs 76
— function of 428
— human, interstitial cells in...337
— influence of, on absorption of pubic bones 73
— x-ray treatment of.....510
Ovulation and menstruation 425

Pancreas, action of, on vagus...218
— and parathyroid deficiency...248
— — thyroid deficiency 248
— — tuberculosis 602
— effect of blocking, in diabetes 83
— raw, in treatment of diabetes. 79
— growth response of, to thyroid and parathyroid deficiency.385
— influence of vagus on islets of 79
Pancreas, total extirpation of, and use of insulin.....520
Pancreatic extract of Acanthias vulgaris and insulin from beef.429
— secretin solution, a method of preparing 345
Parabiosis and the onset of labor 423
— oestrus in.....514
Paraganglia of man, anatomy of 68
Parathyroids, and calcium content of blood.....508
— — liver extract, effect of, on hypertension produced by guanidine compounds...525
— — thymus growth 370
— as heat regulating organs...224
— deficiency, effect of, on growth of hypophysis 145
— — and growth of adrenals...237
— — — — — the pancreas.....248
— — relation of body growth to. 29
— — sex differences and..... 29
— effect of feeding on calcium and creatine metabolism... 91
— extract, action of, on blood and cerebrospinal fluid calcium 86
— — — on guanidine 91
— — effect of 87
— — in dogs and herbivorae... 89
— — — tetany 90
— — inducing hypercalcemia... 88
— — use of in Paget's disease..523
— feeding, effect of on thyroid..526
— glands, heteroplasty of, in tetany 86
— — human, normal and pathological 88
— — internal secretions of..... 86
— guanadine and 445
— hormone, changes in chemical and physical characteristics of blood following administration of 524
— — effect of, on signs and symptoms in tuberculosis 433
— — physiological action of.... 86
— — therapeutic value of.....524
— reticle of endothelial cells in.443
— tetany and fatigue comparable cell changes in..... 87
— — and guanidine 645
— — prevention and control of by oral administration of kaolin 525
— — use of magnesium lactate in 224
— transplantation of, in chronic tetany 432
— — — partial thyroidectomy...437

Parathyroidectomy and bone constituents 223
— — sedimentation of red corpuscles 69
— — ultra-violet radiation 90
— effect of 43
— — — bleeding on serum calcium after 645
— — — on peripheral nerves in fowls 526
— in domestic fowl.....526
Partial thyroidectomy, transplantation of parathyroids in.....437
Pilocarpine and basal metabolism in absence of adrenals.....622
Pernicious anemia, myxedema simulating 535
Pineal and sexual activity..... 92
— gland, development of, in infancy 98
— — internal secretion of.....224
— — origin of concretions and pigments in 92
— — tumors of, and sex characteristics 72
Pituitary, anti-diuretic action of.516
— body, and tuber centers.....516
— diabetes, a case report of....627
— extract, action of on capillaries 205
— — — — — uterus 77
— — administered by alimentary canal 341
— — and liver glycogen.....213
— — effect of, on gastric secretion 519
— — in third stage of labor....633
— — induction of labor by.....635
— — of posterior lobe of, and variations in blood pressure 633
— — — — — effect on the circulation 567
— — to initiate labor at term..343
— posterior lobe deficiency of, and normal jaw and arch development 507
— preparations, effect on blood sugar curve and basal metabolism 201
— principle in circulating blood.634
— relation of, to idiocy.....634
Pituitrin and diuresis in man...632
Placental extracts, action of on female generative organs..... 76
— — and female genital organs. 74
— — effect of on senile female organism 339
— — reactivating action of, in senile females 211
— hormone and genitalia of opossum 291
Pluriglandular affections, gigantism and 17
Pregnancy and parabiosis.....423
— — thyroid hypertrophy.....530
— complicated by exophthalmic goiter 535
Pubertas praecox and female sex hormone 71
Puberty, protein action in children before and during.....209

Raw pancreas in diabetes mellitus 345
Reproduction, study on physiology of, on birds.....426
Reproductive system, rôle of thyroid apparatus in growth of..532
Respiratory metabolism and adrenaline glucemia 621
— — influence of nutrient substances on 231

Scleroderma and tetany, relation of, to thyroidectomy.....627
Secretin, rôle of, in pancreatic secretion 430
Sella turcica, in roentgenograph. 75
Seminal duct ligation and internal secretion of testicles..... 72
Sex-characters, dependence of upon testicular hormones 629
— cycle, follicular phase of....209
— glands, antagonism of, and experimental hermaphroditism.425
— hormone and specific dynamic action of portein.....209
— ratio, modification of..... 73
Sexual cycle, activation of.....339
Spermatogenesis, disturbance of, and female hormonal effect...424
— substances, significance of, for production of female hormonal effects 424
Spleen, extirpation of, and reaction to suprarenin..... 99
Splenectomy, relation of to salt content of rat blood.....422
Status thymicolymphaticus, blood sugar in 346
Steinach operation, new clinical aspects of 337
Sub-parathyroid tetany treated with Collips extract of parathyroid 525
Substernal goiter 535
Suprarenal cortex, relation of to thyroid and thymus glands...434
— hermaphroditism 502
— gland, influence of on the thymus 92

Suprarenal cortex, rôle of, in resistance of rat to diphtheria toxin 501
— rôle of in blood sulphur regulation 504
— transplants, functioning autoplastic 420
Suprarenalectomy, effects of bilateral, on life of rats.....503
— effect of, in rat on resistance.502
— growth of thymus gland following 92
Syphilitic dyspituitarism 213
Syphilis, congenital, and gigantism 405

Testes and fatigue..... 56
— — thyroid in hen-feathered Dorking cock 626
— transplants and rejuvenation.211
— operative interference of, and female hormonal effects...423
Testicles, action of x-ray on.... 75
— hormones and sex characters.629
— seminal ducts ligation and secretion of 72
Testicular extract, effects of, upon pregnant guinea-pig and fetus 509
— fluid obtained after method of N. P. Krawkow.....515
— grafts and resorption of pubic bones 73
— substance, effect of, on sex ratio 73
Tetany and the physiology of muscle 433
— — ultra-violet radiation..... 90
— heteroplasty of parathyroid glands in 86
— parathyroid extract in..... 90
— transplantation of parathyroid in chronic 432
Tethelin, influence of upon growth and longevity 342
Thymic death, due to mechanical pressure 626
— hyperplasia of children.....225
Thymus, and administration of placental extract 74
— — thyroid, antagonism of....539
— age involution of; relation of thyroid and parathyroid to weight of 370
— changes in, in thyroid-treated frog tadpoles 441
— diet, action of, on growth and development of frog larvae.434
— early involution of, due to maternal undernourishment... 94
— extirpation, influence of, on growth and endocrine organs 346
Thymus extracts, influence of, on growth 93
— feeding, influence of, on amphibia and mammals.....527
— gland, relation of suprarenal cortex to 434
— growth response of, to thyoid and parathyroid deficiency.385
— histogenesis of 646
— influence of suprarenal gland on 92
— transplants of 93
Thymusectomy and castration, relation of, to growth.....426
Thyroid ablation in parents, influence of, on endocrine system of offspring 74
— active principle of.....231
— adenoma of 94
— and administration of placental extract 74
— — carbohydrate tolerance....438
— — germ glands 211
— — pellagra 235
— — testes in a hen-feathered Dorking cock 626
— — thymus, antagonism of....539
— — thymus growth 370
— apparatus, and growth of hypophysis 145
— — rôle of, in growth of reproductive system 532
— autotransplantation and homoiotransplantation of.....437
— chemical and histopathological changes in 538
— cretinism and cell changes in nervous system 87
— deficiency and growth of adrenals 237
— — — — — the pancreas 248
— — effect of, on growth of hypophysis 145
— — relation of growth to..... 29
— — sex differences and..... 29
— — with and without myxedema 96
— degree of postoperative reaction 234
— disease and calcium content of blood 508
— — surgical treatment of..... 99
— effect of, on liver glycogen..213
— — — parathyroid feeding on.526
— extirpation of, and reaction to suprarenin 99
— extract, administration of....443
— — and eclampsia 622
— — — hypothyroidism 95
— — — senile cataracts 126

Thyroid extract, effect of, on cholesterol and fatty acids.....101
——effect of on secretion of urine 436
——myxedematous ascites removed by 652
—factor in anemia 230
—feeding, changes in blood sugar following 95
——and growth retardation... 72
——influence of, on Islets of Langerhans 435
—gland (Book Review).....615
——a study of malignant neoplasms of 347
——and body build.....104
——and tryptophan 188
——autolysis of 94
——bacteriology of, in goiter..
——bone formation in.....234
——discussion on diagnosis of malignant diseases of...654
——hormones, axolotl metamorphosis and 550
——inflammations of 442
——influence of anxiety states on 537
——influence of iodine on hypertrophy of 437
——influence of, on hair growth.529
——relation of suprarenal cortex to 434
——relation of, to surface tension of blood plasma...442
—hormone and specific dynamic action of protein.....209
—hypertrophy and pregnancy..530
—in relation to, and treatment of, dermal affections.....105
————excess-fat diet 78
————lipodystrophy 1
—influence of autonomic nervous system, on function of.435
—innervation of 435
—interaction of, with adrenals. 98
—interrelation with adrenal....106
—metastasis to bones.....440
—method of palpating lobes of.229
—normal cases of, under Röntgen irradiation 438
—origin of nephrosis.....529
—patients, elimination of iodine in urine of.....529
—preparations, action of, on growing organism 231
——evaluation of.....228
——peroral and subcutaneous administration of 438
——physiological evaluations of.231
—regeneration, a study of.....165
—relation of, to the action of insulin 216
—reticle of endothelial cells in.443
Thyroid substernal 227
—surgical care of toxic.....436
—therapy and thyroid tolerance in chronic nephrosis.....531
—treated tadpoles, thymus changes in 441
—treatment of myxedema.....101
—tumors of late aberrant.....347
Thyroidectomy and bone constituents 223
——nutritional disturbances of bones 436
—in thyrotoxicosis of exophthalmic type 228
—influence of, on nervous system 436
—partial, increase in colloid following 165
——transplantation of, parathyroids in 437
—relation of, to osseous and muscular changes 94
————salt content of rat blood 422
————scleroderma and tetany 627
Thyroparathyroidectomy, effect of 43
————bleeding upon serum calcium in 645
Thyrotoxicosis and liver injury..105
——total thyroidectomy 228
—syndrome and reaction with small iodine doses.....539
——of, and iodine administration 655
Thyroxin, action of, during feeding with diets of different composition 527
————on human organism....230
—administration of 443
—distribution of 550
—effect of on metabolism.....225
————upon surface tension of blood 105
————on gaseous exchange...646
—mode of transport by blood..541
Tissue extracts, depressor effect of 484
Toxic adenomas, development and nature of so-called.....175
Tryptophen and thyroid gland...188
Tuberculosis, pancreas and.....602
Uterus, action of pituitary extract on 77
Vas deferens ligation and senility 337
Vasectomy in a dog.....337
Vegetative nervous system and dermal-affections .....
Vigor studies on castrated rats.. 56
Virilism, associated with carcinoma of adrenal cortex.....502
